

A.N.I. BLAST GUN

GUNS FOR SURFACE TREATMENT

A.N.I. Produces a complete range of guns for surface treatment for DIY, for industry, for professional use and for car repair shops.

The above pictures show the A.N.I. Suction Blast gun model A-209 and version A209B with suction cup. The model A-209 comes with 1.20 suction pipe.

Manufactured in Italy the A.N.I. Suction blast guns adapt perfectly to the surface to be sanded, resulting in safe, precise work without wasting abrasive media.

Optional Extra

A Tungsten Carbide Nozzle can be fitted as an optional extra
